FOOD QUALITY & SAFETY EVENT LISTING FORM

Please complete all form fields and email form to Bob Zander (bzander@wiley.com).

The Food Quality & Safety Event Calendar is a listing for upcoming food industry conventions, meetings, conferences, short courses, and workshops sponsored by recognized trade associations and by not-for-profit organizations, such as scientific associations and government agencies.

Events from industry companies that are for-profit can be listed for a minimal charge for each event for a two-month period.

Events are posted in the print issue (complete form by the first of the month, two months prior to the desired publication date), foodqualityandsafety.com's Events page, and in the Food Quality & Safety eUpdate newsletter Event section.

Events are published at the discretion of Food Quality & Safety editors.
